

IronOrbit Showcases Secure, GPU-Accelerated, Compliance-Ready Cloud Desktops at Manufacturing Technology Series WEST

Friday, October 3 – Anaheim, CA - IronOrbit, a specialized provider of secure, high-performance cloud workspaces, will showcase its INFINITY Workspaces at the Manufacturing Technology Series WEST (booth 2342), the premier event for advanced manufacturing innovation, taking place October 7–9 at the Anaheim Convention Center.

Recognized for three consecutive years in the Gartner® Magic Quadrant™ for Desktop as a Service (DaaS), INFINITY Workspaces are purpose-built for manufacturers. Engineered with GPU acceleration, they deliver exceptional performance for demanding design, modeling, and production workflows empowering teams to work seamlessly from anywhere with the speed, reliability, and scalability required for complex, graphics-intensive applications.

At the event, IronOrbit will showcase its latest GPU Accelerated cloud desktops and highlight how its AI-infused technology is enabling manufacturers across the country to accelerate production cycles and enhance operational efficiency.

IronOrbit's fortified security posture provides enterprise-grade protection with six consecutive years of SOC 2 Type 2 compliance and a CMMC-ready infrastructure, ensuring manufacturers can safeguard intellectual property, meet regulatory requirements, and maintain resilience across the supply chain.

"Manufacturing leaders are under intense pressure to innovate while meeting escalating cybersecurity and compliance standards," said Kamron Naderkhani, Head of Marketing at IronOrbit. "Our cloud solutions give them the performance they need and the security they can trust, all in one turnkey platform."

By combining breakthrough performance with enterprise-grade security, IronOrbit empowers manufacturers to accelerate digital transformation and stay ahead in an increasingly competitive landscape.

About IronOrbit

IronOrbit is a specialized cloud service provider delivering secure, high-performance, fully managed IT solutions for over 25 years. With expertise in GPU-accelerated workspaces, compliance-driven infrastructure, and 24/7 U.S.-based support, IronOrbit empowers organizations to modernize seamlessly while maintaining the highest standards of security, reliability, and performance.
