

# IronOrbit Set to Promote Modernizing Engineering and Construction Industry at Upcoming ACEC California Conference & Award Show

ACEC California Conference attendees can visit IronOrbit at Booth Number 3

**Friday, February 3rd, 2023 - Anaheim Hills, CA** - IronOrbit, an innovative cloud service provider and Gartner-recognized leader in GPU virtual desktops, announces participation in the upcoming ACEC California Conference and Engineering Excellence Awards. The February 15-16 conference will bring together industry experts and thought leaders to discuss the latest trends and advancements in engineering and technology.

For the first time, ACEC California will marry the Annual Conference and the Engineering Excellence Awards in one action-packed week. IronOrbit will display its GPU-Accelerated INFINITY Workspaces, which help engineering and construction companies modernize operations and increase productivity. Attendees will have the opportunity to learn about IronOrbit's cutting-edge technology and speak with the company's experts about the benefits of moving to the cloud.

*"We are thrilled to be participating in the ACEC California Conference,"* said Kamron Naderkhani, Marketing Manager at IronOrbit. *"As a company dedicated to helping engineering and construction firms stay ahead of the curve, this conference is the perfect platform to showcase our solutions, connect with industry professionals, and highlight the advantages of a cloud first strategy."*

IronOrbit delivers comprehensive solutions that address challenges faced by modern businesses in optimizing system performance and user experience. Gartner recognizes IronOrbit INFINITY Workspaces as a leading managed DaaS solution. INFINITY's GPU-Accelerated hosted desktop stands out due to its dynamic resource allocation, automation features, and user-friendly management interface provided through the multi-cloud IT management platform IOCentral. The platform allows for control of hybrid IT systems and environments through a single dashboard.

**ACEC California** is the nation's largest Member Organization in the American Council of Engineering Companies (ACEC). For over 60 years, the nonprofit has been dedicated to improving the consulting engineering and land surveying professions. They also focus on protection of the general public, while promoting the private sector for growth and development in California. The ACEC California Conference is the premier event for AEC firms and government officials to be educated, informed, and provided the resources and guidance needed to succeed in today's digital landscape.

**IronOrbit** is a leading provider of cloud-based solutions for engineering and construction companies. The company's innovative technology helps businesses modernize their operations and increase efficiency by streamlining their processes and providing real-time data access. With IronOrbit, companies can increase productivity, reduce costs, and gain a competitive advantage. Learn more about how our **GPU Accelerated INFINITY Workspaces** have helped AEC firms.
