

IronOrbit to Outshine Competition with High-Performing, NVIDIA GPU-Accelerated INFINITY Workspaces at AU

Friday November 3rd, 2023 - Anaheim Hills, CA - IronOrbit, an industry leader in fully managed IT services and GPU-powered cloud solutions, is excited to announce its participation in the upcoming Autodesk University (AU). Attendees will learn how the Gartner® Magic Quadrant™ recognized IronOrbit's INFINITY Workspaces, accelerated exclusively by NVIDIA GPUs, including the NVIDIA A40, L40, and NVIDIA RTX™ 6000 GPUs based on the Ada Lovelace architecture, for proficiently handling graphics-intensive applications like those offered by Autodesk. The Las Vegas event attracts design professionals and thought leaders in architecture, engineering, and construction.

IronOrbit unleashes the power of cloud desktops by focusing on GPU-specific use cases and offering curated, high-performing, and secure virtual desktop experiences. INFINITY Workspaces are ideal for design and creative professionals or enterprises seeking unparalleled performance within a rich, responsive, and resource-efficient environment. These cloud desktops redefine remote working and collaborative digital workflows and are capable of handling the most GPU-intensive applications and workloads.

"At IronOrbit, we continually strive to pave the way for innovation and efficiency. Our GPU-accelerated INFINITY Workspaces not only ensure that users have the computational power they need wherever they are, but also present a reliable, secure, and scalable solution," said Raed Jabak, Sr. Product Manager at IronOrbit.

AU2023 presents a unique platform that offers engaging insights into next-generation technologies and sustainable solutions. IronOrbit invites conference attendees to visit booth #368, where our expert team will provide live demonstrations, engaging discussions, and insightful walkthroughs of our INFINITY Workspaces. They will explain how this technology can be used to reshape the approach towards remote work environments with a flexible solution that can adjust to market trends and demands.

Learn how IronOrbit is pushing the boundaries to empower professionals with the tools they require to unleash creativity, optimize workflows, and elevate operational efficiency.

AU

AU2023 brings together innovators in architecture, engineering, construction, product design, manufacturing, and media and entertainment to share ideas, advance industry practices, and explore opportunities for the future.

IronOrbit

IronOrbit is dedicated to delivering fully managed IT solutions that empower businesses and professionals to achieve more. With a firm belief in innovation, reliability, and stellar performance, our solutions, including the GPU-accelerated INFINITY Workspaces, are curated to transcend geographical barriers, promising a seamless, efficient, and secure IT experience.
